The only computer card games that actually feel like card games.

Say goodbye to flat, slow, lifeless card games. Stop struggling with compilations that make you wonder if the designers have ever played the real game before. Start playing Hearts, Spades, Pitch, and Euchre the way you want to play, with some of the most life-like characters you've ever met. Freeverse's 3D Card Games put the fun back into online card games.

Have a seat.

Most computer card games put you above the table, leaving you feeling like you're glued to the ceiling, watching a game. Freeverse's 3D Card Games puts you in the game, surrounding you with a varied cast of characters and lush

environments. Play with and against humans, aliens, or even a giant, each with their own personality and mannerisms.

Detailed game rooms add to the feeling of actually being there. When you've tried playing in Central Park, at a kitchen table, on a cruise ship, or even in Wonderland, you'll never want to go back to patterned backgrounds again.

Effortless online play.

With the GameSmith™ opponent matching service, you can be online and playing against people from around the world in just a few clicks. No web pages with clunky Java applets to load - the same full-featured interface you play offline is the

one you play online, with easy to use game finding services and enhanced features for communicating with other players. Add in automatic rankings, user-controlled privacy settings, and helpful players and staff, and you've got one of the best free online gaming communities around.

Get into the game.

With Freeverse's PicturePuppets, making yourself a character in the game couldn't be easier. Just drag and drop a picture onto the game window, and your picture

Left: 3D Hearts Deluxe (Bonus Pitch Game Included)

Right: 3D Spades Deluxe (Bonus Euchre Game included).

No platform boundaries.

Freeverse's 3D Card Games will run on every modern home computer, and even many older ones. With native cross-platform compatibility for Windows, Mac OS X, and the Classic Mac OS, playing these games on practically any computer is a breeze.

System Requirements

Supported Operating Systems

Windows 95, 98, ME, 2000, and XP

Mac OS X - 10.1 and higher

Mac OS Classic - 8.6, 9.x

Other requirements:

250 MB of disk space

32 MB of RAM

For network play:

28.8 kbps internet connection or better.

Helpful Links

becomes your identity, automatically sent and displayed to all other players. While other games may make you play Frankenstein hunting for just the right body parts, PicturePuppets gives you limitless possibilities for expressing yourself online.

Cards your way.

Everyone learns cards differently - some people have been playing since birth with their family's rules, others are just getting started. Our 3D Card Games allow you to customize the rules and interface, so you can play by the rules you're most comfortable with.

- Three levels of AI plus three different play styles allow you to customize your partners and opponents.
- Customizable rules allow you to turn on and off specific rules pertaining to each game, allowing for countless possibilities.
- In-game tutor and telepathy options allow you to learn at your own pace and pick up the game naturally. Included help files explain rules, strategy, and tips to help you become a better player.
- Interface options allow you to change the speed of game play, alter the chattiness of the computer, and tweak the interface to your liking.

Made by Freeverse, the card game experts.

Freeverse Software is a respected leader in computer card games, with hundreds of thousands of users downloading and playing its games in the last ten years. Our competitors treat their card games as just a sub-division of their product line. Freeverse continues to up the ante for online and solo card gaming. Play one game, and you can feel the difference.
